

## ITU Press Latex Template Using Onine Latex Editor, Overleaf

You can consider preparing your submission-ready file using an online Latex Editor, **Overleaf** that you can use free.

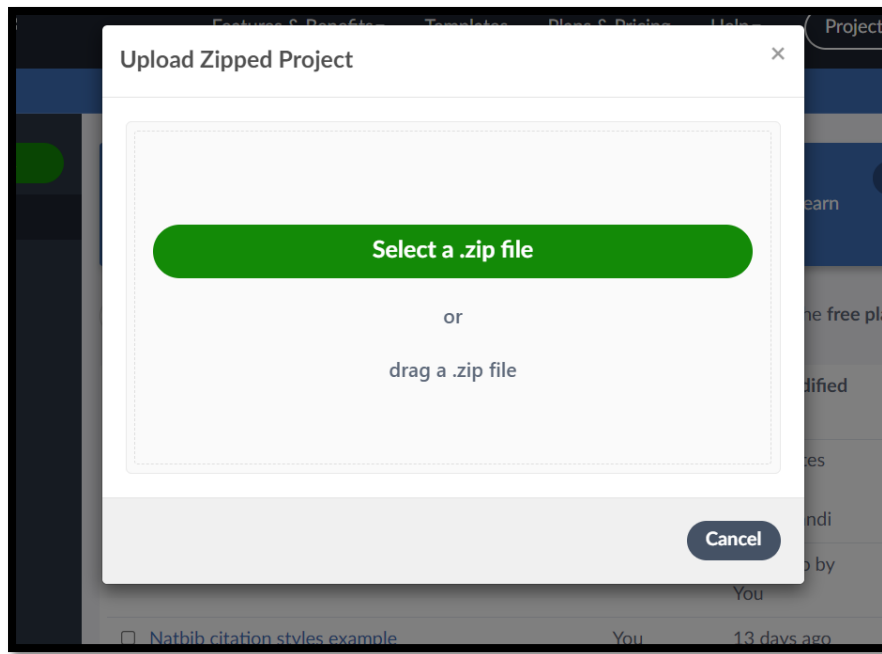

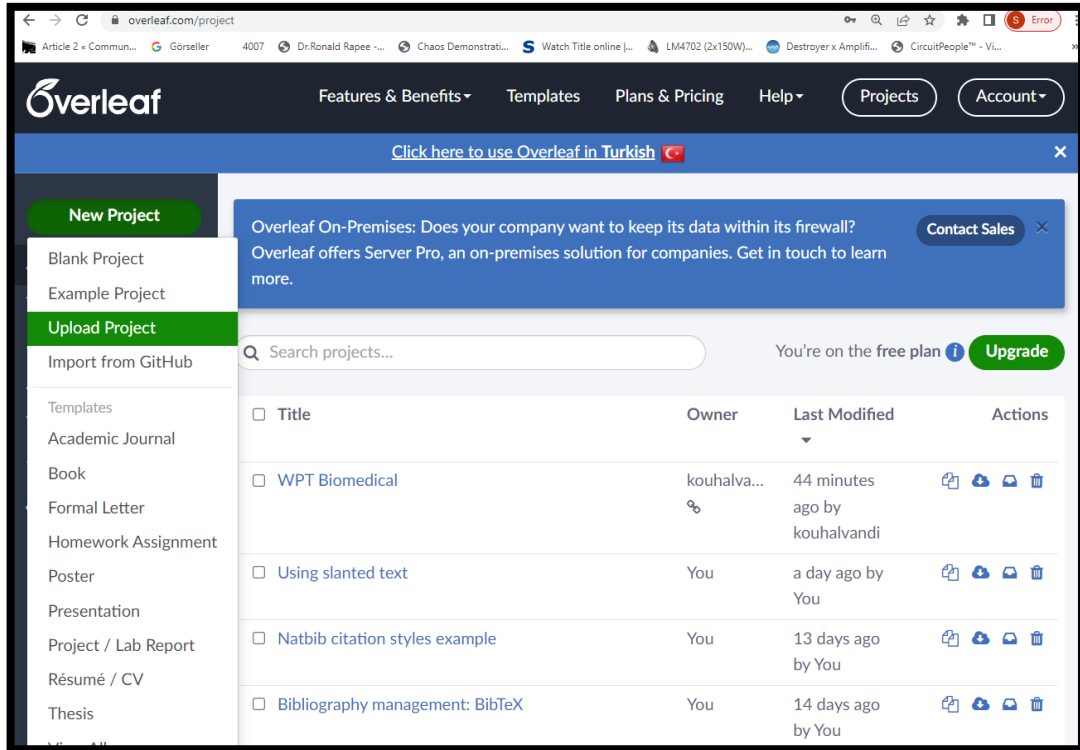

- 1- Go to the **overleaf.com** site and register to the system. Then you can login to the system using the login information sent to your e-mail.

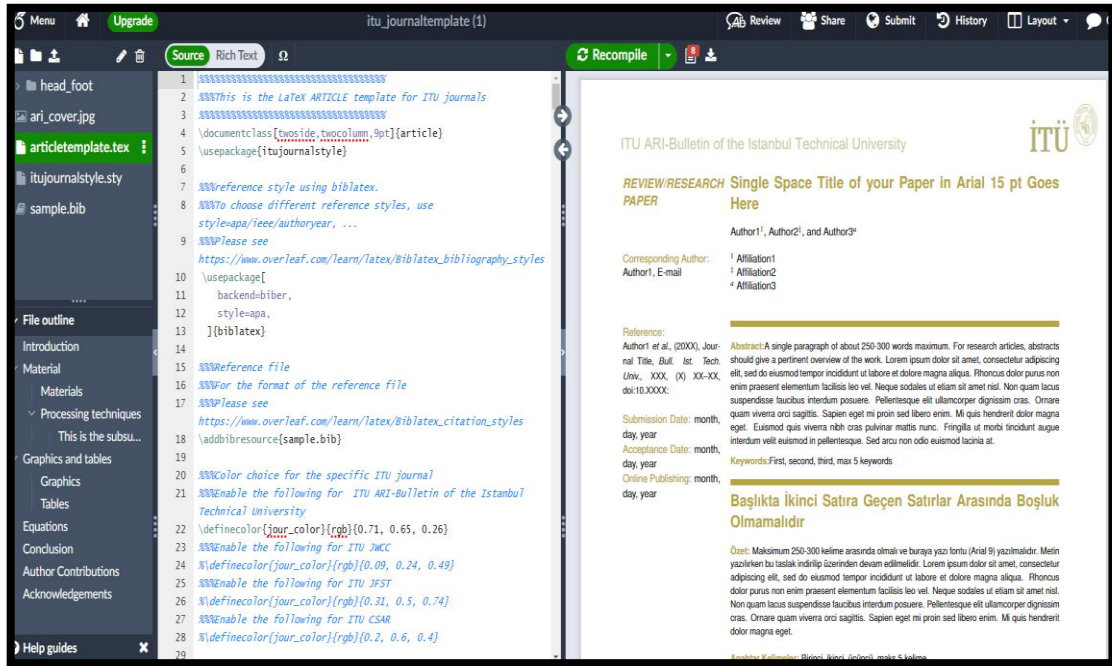

- 2- Press the **"New Project"** button on the display press the continue button on the screen that appears.

- 3- Press **“Upload Project”** button and upload ITU ARI latex template file **“itu\_journaltemplate.zip”** to the overleaf system by dragging it to the pop-up window.

- 4- On the pop-up window, click on the “**Recompile**” button to display the pdf file.

- 5- You can find very instructional videos and very helpful documents that can help you to use Overleaf Latex Editor and general latex in the following link.
